

Disability Rights Florida was founded in 1977 as the designated Protection and Advocacy (P&A) system for individuals with disabilities in the State of Florida.

The P&A system exists to ensure the safety, well-being, and success of people with disabilities.

About the PAIMI Advisory Council (PAC)

PAC members have experience, expertise, and interest in mental health issues. They advise Disability Rights Florida's staff and governing board on how to best protect and advocate for the rights of individuals with significant mental health conditions. The PAC helps determine our annual priorities for PAIMI-funded services and provides regular feedback and input about those services. PAC members also educate individuals with significant mental health conditions and their supporters about PAIMI. Please visit our website or call 800-342-0823 if you are interested in volunteering to be a PAC member.

Contacting Disability Rights Florida

On your initial call to us, an intake specialist will ask for some general information about you and a brief summary of your issue. Your information is then submitted for review.

Our services are free and confidential.

Protection & Advocacy for Individuals with Mental Illness (PAIMI) is a federally-funded program authorized to protect and advocate for the rights of adults with significant mental illness or children and youth with significant emotional disturbance.

Disability Rights Florida uses PAIMI grant funding to investigate, monitor, advocate, litigate, and educate to protect individuals with significant mental health conditions from abuse, neglect, or rights violations, and ensure the enforcement of the Constitution and Federal and State statutes.
